

PARALLEL
ARCHITECTURAL PRODUCTS

Enhance Your Environment with **Style + Strength**

Premium USA-made aluminum architectural solutions, compliant with BABA requirements

Parallel Architectural Products crafts versatile aluminum systems, designed to outperform wood and other traditional materials.

Our building products combine the appeal of wood with the ingenuity of artfully engineered architectural solutions.

Our powder coated aluminum profiles will not warp or crack, and are devised especially for simple installation. **We skillfully produce durable, state-of-the-art finishes for our aluminum, providing more than 50 solid and woodgrain colors.** Because we own our production process, we can ensure the quality of our products, and can produce custom colors for one-of-a-kind projects. When you choose Parallel Architectural Products, you can rest easy knowing your project uses superior aluminum, made sustainably in the USA.

Privacy Screens

Parallel's screen system offers versatile solutions for both commercial and residential spaces. Our strategic installation method allows for easy setup in various situations — **providing privacy, concealing outdoor appliances, or creating stylish focal points.** The customizable combinations of slats, posts, and battens deliver both aesthetic appeal and practical functionality.

Fencing + Gates

Our fencing and gate systems offer a modern solution that enhances privacy and adds style. Whether it's a backyard privacy fence for a residence, or a more robust solution for commercial properties like office parks and hotels, Parallel aluminum fences and gates are **easy to install, customizable, and effectively protect and enhance** your space.

Pergolas

Parallel aluminum pergola systems combine **the beauty of traditional wooden pergolas with significantly longer lifespans.** Whether you're designing a pergola for a patio or creating a centerpiece for a backyard, our weatherproof structures are built to last. Attach a Parallel pergola to an existing building, or create a freestanding structure in commercial or residential spaces.

Industry-Leading Color Development

Explore our entire expansive and growing selection of more than **30 woodgrain + 10 solid colors** at parallelap.com.

Parallel Architectural Products is a leader when it comes to creating both classic and modern finishes for our aluminum products. Not only do we produce woodgrains that mimic the natural warmth and allure of real wood, we are masters when it comes to crafting a palette of captivating, contemporary solid colors that turn your projects into works of art.

We are here to help you create custom solid colors for larger projects. Let's work together to develop a shade that best fits your vision, company or brand.

Beauty *and* Function, Backed by the Strength of a **Limited Lifetime Warranty**

Parallel is proud to provide a warranty that's as reliable as our products. Our limited lifetime warranty covers any buckling, corrosion or other defects, as long as the products have been installed to Parallel's specifications and maintained properly. Additionally, we provide a 15-year warranty for the finish, including cracking, color change and more, so you can be confident that your aluminum systems will stay beautiful for longer.
