

SPECIFICATION DATA SHEET

GATES + ENCLOSURES

About Parallel Gates + Enclosures

Parallel Architectural Products creates superior, 100% aluminum gates and enclosure systems to suit a wide range of styles and applications. A Parallel gate or enclosure is the perfect way to bring both style and durability to functional structures around your building. Plus, all of our finishes are powder coated to create a dependable, enduring product that won't fade, crack or tarnish no matter the weather conditions, unlike alternative materials.

Installation

Parallel's gates and enclosure systems can be combined to create a full structure such as a trash enclosure, or utilized individually to create pedestrian or driveway gates that attach to a pre-existing surface. Our gates and enclosures use hidden fastener and spacer technology, allowing for customization and ensuring a clean finish.

True Imperial Sizing

Customize your gate or enclosure by choosing between or mixing and matching slat sizes: **2", 4", 6"**. Posts are available in **2.5" x 2.5" or 4" x 4"**, and **corner posts and gate connectors** are used to ensure sturdiness and strength.

Parallel parts are standardized to **20' lengths**.

Colors

Parallel has an expansive selection of more than **40 woodgrain** and **10 solid colors**.

We are **industry leaders in color development**, regularly adding new finishes to our collection. Keep up with our ever-expanding palette by visiting parallelap.com.

Custom solid colors are available for larger projects.

Warranty

Parallel Architectural Products is proud to offer a limited lifetime warranty! Parallel expressly warrants for a limited lifetime that its aluminum products are free from manufacturing defects in material or workmanship when installed according to Parallel's specifications and properly maintained. The warranty provides for a 15-year warranty for the finish, including checking/cracking, chalking, color change, gloss retention and adhesion of finish.

Visit parallelap.com/warranty for the full warranty.

Maintenance

Parallel's products are easy to care for and manufactured to last. With simple maintenance, your aluminum gate and enclosure applications will last many years!

- Wash the surface with a mild solution of pure soap or mild non-abrasive kitchen detergent in warm water. Application should be with a sponge, soft cloth or soft bristle nylon brush, and should be gentle to prevent shiny spots.

Availability + Cost

Gate and enclosure systems are available directly through Parallel sales reps, and through our network of distributors. Plus, round out any project with the addition of our other products like cladding, battens, fencing, screens, and more! To get started and for current pricing, contact us at info@parallelap.com.
